

PocketEar® is a beautifully-designed little noise indicator containing a pair of good quality earplugs that will soften the overall acoustic image without spoiling the musical experience.

PocketEar® is a pleasure to the ear – and the eye! A quick and easy sound-check right at hand! If the noise level is too high, just open up your PocketEar® and – Hey Presto! a pair of earplugs appear!

LOOK AFTER YOUR EARS!

We take good care of ourselves and our health. We eat healthy, low-fat diets, engage in sports and exercise and look after our teeth, skin and hair. We strive towards a clean environment – and one with less noise.

We use our senses – to familiarise ourselves and to enjoy life – fragrances, tastes, sounds and music – so it is important that we look after them. Our hearing is one of our most precious senses. Our ears help us to experience many of life's wonders, great and small. There is no cure for impaired hearing. That is why it is so important to preserve our hearing as long as possible!

Accuracy: +/- 3 dB

Battery: Type CR 2430/3V

Lifetime – approx. 2,500 5-second measurements

Dimensions: Length: 70 mm, Width: 47 mm

Depth: 23 mm

Weight: 25 g including battery
